husband's initial, and the occupations of all.
Principal officers or owners and a description of
businesses are included as well.

2 A *Householders' Directory* including a Street and
Avenue Guide. This section lists every street and
where intersecting streets appear. It lists numeri-
cally every location on each street, naming the
householder or business at each number and
whether the person is a homeowner or renter and
if he has a telephone. Similar information is pro-
vided on office and public buildings and their
occupants.

3 A *Classified Business Directory* listing every busi-
ness, classified as to type, and showing names and
addresses. It also lists every profession, club, so-
ciety and association, hospital and cemetery, labor
organization, library, park and playground and
school.

4 A "Yellow Section" or *Buyers' Guide*, where the
advertiser may explain in greater detail the serv-
ices or products he has to offer.

INTRODUCTION AND GENERAL INDEX

HILL DIRECTORY COMPANY publishers of Southeastern Directories (publishers of Forest City, Rutherfordton and Spindale Directory since 1958) present to subscribers and the general public, this, the 1962 edition of the Forest City, Rutherfordton and Spindale City Directory, which also includes Alexander Mills, N. C., Ruth, N. C., and Rural Route Residents.

Confidence in the growth of Forest City, Rutherfordton and Spindale's industry, population and wealth, and in the advancement of their civic and social activities, will be maintained as sections, of this Directory are consulted, for the Directory is a mirror truly reflecting these communities to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with approval of every user, and that the Forest City, Rutherfordton and Spindale Directory will fulfill its mission as a source of authentic information pertaining to the communities.

Five Major Departments

The five major departments are arranged in the following order:—

I. THE BUYERS' GUIDE constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Forest City, Rutherfordton and Spindale. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive area like Forest City, Rutherfordton and Spindale, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Forest City, Rutherfordton and Spindale, and the name, official personnel, nature and address of each firm and corporation in the communities.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE in the fourth major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

V. THE NUMERICAL TELEPHONE DIRECTORY is the fifth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the communities, depicting in unbiased terms what they have to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Forest City, Rutherfordton, Spindale and vicinity.

The Forest City, Rutherfordton and Spindale Out-of-Town City Directory Libraries

Through the courtesy of the publishers of the Forest City, Rutherfordton and Spindale City Directory, directory libraries are maintained in the offices of the Forest City Chamber of Commerce and the Rutherfordton Chamber of Commerce, for free reference by the general public. These are one of more than 1,000 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

FOREST CITY

(Courtesy of Forest City Chamber of Commerce)

Has been proclaimed as one of America's most beautiful small towns.

General Review

Springing up around the main cross-roads, located at the foothills of the Blue Ridge Mountains, Forest City was first chartered as Burnt Chimney and ratified the 27th day of February, 1877. On March 7, 1887, the General Assembly amended the Charter and the name was changed to Forest City. Accentuating the natural beauty of Forest City is a rectangular spruce and magnolia covered park in the center of the main street area. Located on each side of the main park are two smaller park areas adding to the beauty of the town.

Location

Forest City is situated in the Southwestern Piedmont section of North Carolina, the largest town in Rutherford County. It is located within a triangle formed by Charlotte, North Carolina (60 miles east), Asheville, North Carolina (45 miles northwest), and Greenville, South Carolina (60 miles southwest). Forest City is only 210 miles from the state capitol, Raleigh, and lies at the foot of the Blue Ridge and Smokey Mountains. The summer resort of famous Chimney Rock and Lake Lure is only twenty minutes from Forest City.

Climate

Located within the thermal belt extending from Tryon, North Carolina, and following the base of the mountains to the Virginia line, Forest City enjoys an unexcelled year-round climate. The thermal belt is formed by the protection of the western North Carolina mountains which break up harsh weather conditions, thus giving the Forest City area mild winters and summers cooled at night by mountain breezes. The average July temperature is 78.9 and the average January temperature is 41.9. Rainfall is 52.03 inches. The elevation is 860 feet above sea level.

Population

United States census, 1950, gave Forest City a population of 4,971. The 1960 census is 6,574. Rutherford County 1950 census was 46,356, and the 1960 census is 46,843.

Government

Forest City is administered by a Board of Alderman and a mayor who are elected by the people. The Board of Alderman represent a good cross-section of the community insuring that all phases of community interest and activity are presented. Rutherford County is governed by a Board of County Commissioners elected by popular vote.

Transportation

Forest City is served daily by three railroads—Southern, Seaboard Air Lines, and Clinchfield—which provide fast

and economical freight services to all points. Approximately twenty-eight motor express companies provide thru freight and pickup service. The Queen Coach Company and Carolina Scenic Bus Lines operate a number of buses daily. Local transportation is provided by the Rutherford County Transit Company and a number of taxi companies. Excellent air transportation of all natures can be obtained from Charlotte, only 65 miles away and Spartanburg and Greenville, approximately the same distance. Capital, Eastern, Delta, Piedmont, and Southern are all available.

Communication

The Forest City Courier is published bi-weekly, having a circulation of over 6,500 and obtaining news from AP service and two radio stations. WBBO has an assigned frequency of 780 KC, 1000 watts, AM and FM. WAGY has an assigned frequency of 1320 KC, 1000 watts, AM and FM. The Forest City area is served by five television channels.

Schools

There are three white and one colored elementary schools and one consolidated high school that will open for the first time in the fall of 1962 with an enrollment of approximately 800-900 students. There is one colored high school serving the county area. With the opening of the ultra-modern East High, the county will be served by three consolidated schools, all with enrollments over 800 students.

Library

The Forest City Library is a branch of the Rutherford County Library which was established in 1926. The county library has four branches and a bookmobile. The Forest City Library now has over 10,000 volumes. A bond issue has been passed by the town of Forest City and a new library building with increased facilities will be completed sometime during 1962.

Recreation

The city sponsors a full-time recreational program with a director employed during the summer months. The town offers a nine-hole municipal golf course, two asphalt tennis courts, and two swimming pools. Funds have been made available for the construction of a colored pool and other recreational facilities. Nearby Lake Lure and Chimney Rock within the county area offer boating, swimming, fishing, hiking, and horseback riding. There is a summer camp for both girls and boys at Lake Lure.

Hospitals

The Rutherford County and Forest City area is served by the Rutherford Hospital having a total of 105 beds and a nursery. There are daily clinical services and laboratories. The hospital has always been known for its kind and personal attention.

Religion

A total of fourteen white and three colored churches, representing six denominations, make up the religious facilities in Forest City. This includes Catholic, Methodist, Baptist, Pres-

byterian, and Holiness. In the county, there are Lutheran, Jehova Witness, Seven-Day Adventist, and Episcopal in addition to those in the city.

Farming

Although the backbone of the economy is textiles, farming remains a very important factor in the economy of Forest City and Rutherford County. The county is very proud of the large number of rural communities and the prize-winning progress that has been made in community development.

Trade and Commerce

Although the population of Forest City is 6,574, the retail trade area would include a population of 65,000 according to the North Carolina Employment Security Commission. The main street business is very healthy in addition to the town being served by two shopping centers. Several large trade events are held each year to help promote Forest City and retain the local business.

Industry

Forest City is rapidly becoming an industrial community with large and small industries. The industrial payroll amounts to over \$100,000 a week employing approximately 1,500 workers. The sale of manufactured goods in Forest City would approximate \$2,338,000 annually. Products manufactured in Forest City include textile goods, ladies' and children's garments, meat packing, leather products, cabinet displays, bottled drinks, and lumber products.

Water Supply

Forest City draws its water supply from the mountain streams and Second Broad River and has unlimited sources of high-grade water. A new purification plant was built in 1951 at a cost of \$600,000 and has a capacity of over two million gallons daily and can easily be converted to a four million gallon daily output.

General Review

One of North Carolina's oldest communities . . . on the mild southern slopes of the Blue Ridge . . . where the mountains meet the rolling Piedmont.

A town of progressive, friendly people . . . in the growing Southeast . . . offers a well-rounded community life, ideal climate the year around . . . the center of a highly productive, diversified agricultural area, balanced with thriving, healthy industries . . . unequaled recreation.

AGRICULTURE—Rolling, fertile land 1,000 feet above sea level supports a diversified agricultural community. Criss-crossed with good roads, served by electricity and telephones, this area is recognized as a leader in Rural Progress. The value of crops and livestock is well over \$5,000,000 and continues to grow. Main crops are cotton, grains, sweet potatoes, small fruits and other truck crops.

CHURCHES—Rutherfordton is truly a community of good churches. There are 12 churches of these denominations: Baptist, Methodist, Presbyterian, Episcopal, Lutheran, Holiness, Catholic and Church of God.

CIVIC CLUBS—Rutherfordton civic clubs are constantly active to improve the community. Included are the Kiwanis Club, Lions Club, Jaycees, Woman's Club, Rutherfordton Garden Club, Blue Ridge Garden Club, Isothermal Garden Club and the Stringfield Music Club. Other organizations include American Legion, Legion Auxiliary and Masons.

INDUSTRY—There are 15 manufacturing establishments in Rutherford County employing 8,000 workers . . . It's a thriving, healthy industrial area . . . There is an ample, energetic labor pool of 3,475 persons within a 20-mile radius . . . Progressive, expanding industries find this area ideal . . . The principal types of industries are textiles, lumbering, dress manufacturing, pin manufacturing, dairying, farming and plastics . . . The textile plants process cotton, synthetics and wool. One of Duke Power Company's largest steam plants for generating electric power is located within 20 miles of Rutherfordton . . . An ample supply of soft water makes the area attractive for industries.

Church

Library

LIBRARY—The Norris Public Library on South Main Street of Rutherfordton began as a subscription library in 1922. The present attractive building was erected in 1933. It contains 27,478 volumes, and carries its services into remote areas of the county by "bookmobile".

18,136 volumes are borrowed each year by the residents of Rutherfordton. Staffed with competent and experienced personnel, the library is an integral part of the life of the community.

POWER—Duke Power Company serves Rutherfordton with electric power. The company is one of the nation's ten largest utilities. A huge steam plant at nearby Cliffside, plus the interconnections of the Duke system, assures an ample, dependable supply of power for all purposes.

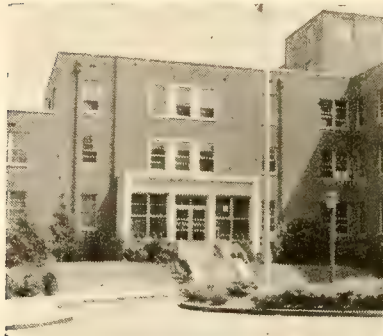

RECREATION—Rutherfordton offers unequalled recreation only 20 minutes away in Lake Lure, one of the most beautiful lakes in the Southern Highlands, where fishing, boating and water sports are enjoyed. Rutherfordton has an attractive community house, and city operated, well-kept golf course, tennis courts and swimming pool. Tryon, a favorite winter resort, is only 22 miles away.

COMMUNICATION—A dial telephone system is operated by the Southern Bell Telephone and Telegraph Company. There is a Western Union office and an energetic weekly newspaper. Toll-free telephone service is maintained between every community in the county.

EDUCATION—Rutherfordton has more than 90 competent, well-trained teachers in the local school district. Central High School, enrollment 650, is accredited by State of North Caro-

High School

lina and the Southern Association of Colleges and Secondary Schools. The three elementary schools meet the standard requirements of the State Board of Education.

Administered by an elected County Board of Education and an appointed Local Board of Trustees, (District No. 1, Rutherfordton) the Rutherfordton School officials are planning new schools, as well as the remodeling of present schools.

HEALTH—Rutherford Hospital is a modern, newly remodeled institution. There are twelve resident physicians. It has 129 beds, an attractive, comfortable nurses' home and an approved school of nursing.

The hospital has been recognized as one of the 10 best managed hospitals in North Carolina. It was one of the first North Carolina hospitals to win accreditation by the American Medical Association.

The Rutherford-Polk District Health Department, serving Rutherford and Polk counties, makes its headquarters in Rutherfordton. It is one of the state's outstanding health offices, being noted principally for the Cancer Detection Center which operates in close cooperation with the Cancer Diagnostic Clinic of Rutherford Hospital.

SERVICES—The police and fire departments are on 24 hour duty protecting lives and property. Patrol cars equipped with two-way radios and tied in with Sheriff's, highway department, and other community police in the area, provide constant protection. The fire department has two trucks, including a new one equipped with the latest "fog" nozzles and carrying a large quantity of water.

**Fire Department**

TRANSPORTATION—Located on both the Southern Railway and the Seaboard Railroad lines, the area has ample rail communications. Three national highways (U. S. 64, U. S. 74, U. S. 221) and a state highway (N. C. 108) assure fast connections with the metropolitan areas of both Carolinas. Fourteen motor freight lines and two bus lines provide daily service.

WATER SUPPLY—Water service, too, is furnished by Duke Power Company. Rutherfordton is served by a filter plant rated at 2,000,000 gallons per day. The consumption per month has averaged 48,000,000 gallons. Plans are underway to increase the filter plant capacity to 3,000,000 gallons per day, and provide a raw water storage of 150,000,000 gallons.

Out of Business

The Importance of keeping firm and product names
in the public eye is recognized by all business men.
It is astonishing to see how a firm or product, how-
ever meritorious, will slip into the limbo of the for-
gotten if not persistently advertised.

The City Directory is the natural medium for keeping a business
or product name in the spotlight. Insist on being well repre-
sented in its pages.

"h"—HOUSEHOLDER

"r" AND "h"

Two important symbols are used in your City Directory. The symbol "r," before an address stands for "Resident." That person resides at that address but is not the head of the family or family head. The symbol "h" stands for "Householder"—the person in whose name the home is occupied.

CASHIERS! TELLERS! -----CLERKS!-----

Do your employers furnish you with
the latest edition of the City Directory?

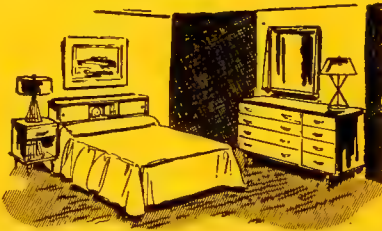

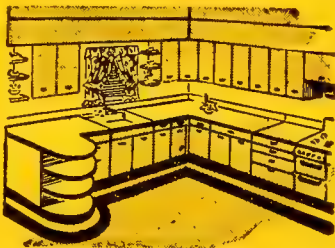

You need it at your elbow at all times, to protect
your company from forgers and bad-check artists.
A few questions, checked against City Directory
information, will trip them at once. Intelligent use
of the City Directory for this purpose has saved
thousands of dollars and helped make some cities
"too sharp" for bad-check "operators."

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.
Insist on being well represented in its pages.

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** — aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which can not be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Please! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers—the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

★ Each edition of your City Directory is widely distributed to free - reference City Directory Libraries located at the Chambers of Commerce of Hundreds of other cities.

Therefore your ad in the City Directory is seen by buyers from coast-to-coast

Out of Sight - Out of Mind

★ Out of Business ★

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

The City Directory is the natural medium for keeping a business or product name in the spotlight.

INSIST ON BEING WELL REPRESENTED IN ITS PAGES.

VITAL INFORMATION AT YOUR FINGER-TIPS

★ Tens of thousands of people who were formerly strangers to the City Directory are consulting it on questions of citizenship, employment, sources of supply, communications, etc. Also, Directory usage is up among regular subscribers.

HILL'S Forest City, Rutherfordton and Spindale

Directory of Householders, Occupants of Office
Buildings and Other Business Places, Including
a Complete Street and Avenue Guide
Including Alexander Mills and Ruth, N. C.

1962

Copyright, 1962, by Hill Directory Company

In the following list the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or house-owner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the streets are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

The symbol @ following a householder's name indicates that we have received information during the canvass that the house is owned by some member of the family, but as the publisher cannot and does not guarantee the correctness of the information furnished, nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publisher furnish further information than that shown.

Telephone numbers as supplied to us on our canvass are shown opposite names.

Figures in parenthesis denote old numbers.

The word street is not used in addresses. Where a designation av, cir, ter, etc., does not appear, the designation st is understood.

The numerals that appear at right edge of columns, ahead of street descriptions and some street intersections, are merely for the guidance of the publishers, and have no other significance.

This section includes some listings reading "No Return." In each case the Publishers tried diligently, by various means, to obtain the information for the occupants but were unsuccessful. First, two personal calls were made by an enumerator; next, a double postal card was mailed and the telephone used when possible.

Common Sense About City Directory Circulation

THE TRUE VALUE of advertising circulation is circulation consulted.

TO BE EXACT by actual survey in twenty-four average American cities by actual count each City Directory averaged three and one-half consultations for each business day.

TO BE CONSERVATIVE we will eliminate the sixty Sundays and Holidays when no tests were made.

FOR EVERY THOUSAND DIRECTORIES sold there will be an average of three and one-half consultations for each book for THREE HUNDRED and FIVE days, therefore $1000 \times 3\frac{1}{2} \times 305 = 1,067,500$.

Who else in same or similar lines?

Power of Advertising

THE CITY DIRECTORY is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you?

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Our Service Cannot Be Excelled

THE CITY DIRECTORY

represents the city and its
institutions in every corner
of these United States

**Are You Properly
Represented In It?**

**The Classified portion
catalogues the professions
and goods handled here**

**Are You Listed Under Your Proper Heading
So the Prospective Buyer Can Find You?**

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** — aims to inform the consumer and help him to buy more intelligently.
2. **Good Advertising** — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.
3. **Good Advertising** — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.
4. **Good Advertising** — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.
